

Chunlin Bian

GEOGRAPHER · LANDSCAPE ARCHITECT · FULL-STACK DEVELOPER

☎ (+86) 18215758251 | ✉ bcl200n@163.com | 🏠 bcl200n.github.io | 📱 chunlin-bian-88a37a6a | ResearchGate: Chun Bian

“Self-discipline and social commitment”

Summary

Chunlin Bian is a Ph.D. candidate in Architecture at Tongji University, a geographer, registered landscape architect, intermediate forestry engineer, AMD Senior Developer, and independent full-stack developer. He has more than 10 years of research experience in higher education, ecological planning and design, and digital technology applications. His research focuses on multi-agent reinforcement learning, seismic resilience assessment, urban renewal, and AI4Science. He was formerly a Senior Lecturer at the School of Tourism and Urban-Rural Planning, Xichang University, and is founder of Yiren Architecture and Landscape Design Co., Ltd.

Work Experience

Xichang University

Xichang, P.R.China

SENIOR LECTURER

Feb. 2016 - Present

- Teach Landscape Architecture, Urban Planning, Geographic Information Systems, and Parametric Design.
- Led InSAR-based urban subsidence and surface-deformation research projects in Xichang and Liangshan, including one PI project and a provincial collaborative project.
- Built an AI-driven InSAR and Digital Earth Advanced Laboratory; produced two utility-model patents and four software copyrights related to radar reflectors and InSAR monitoring tools.
- Co-led the Qionghai Lake Geodesign International Workshop with the University of Sheffield, U.K.

Yiren Architecture and Landscape Design Co., Ltd.

Xichang, Chengdu, P.R.China

FOUNDER

Jan. 2018 - Present

- Led rural revitalization planning and design projects for Xixi Village, Chenbao Village, and related settlements.
- Directed the conceptual planning of Panzhihua National Forest Park, focusing on ecological sustainability, carbon neutrality, and accessibility.
- Delivered tourism planning and architectural design for the UNESCO World Heritage-listed Kaiping Diaolou and surrounding villages in Guangdong Province.

Panzhihua University

Panzhihua, P.R.China

LECTURER, ARCHITECTURE & URBAN DESIGN

Aug. 2010 - Feb. 2016

- Taught architectural design, urban design studio, and landscape architecture courses.
- Supervised undergraduate thesis projects in architectural design and urban planning.
- Participated in university-industry collaboration projects focused on local vernacular architecture documentation.

Writing

Journal Article

FIRST AUTHOR

- Bian, C.; Meng, G.; Yang, L.; et al. “Modeling Seismic Resilience and Hospital Evacuation: A Comparative Analysis of Multi-Agent Reinforcement Learning and Classical Evacuation Models.” *Buildings*, 2026, 16(8), 1538.

Chinese Journal Articles

FIRST/CO-AUTHOR

- Bian, C.; Meng, G.; Yang, L.; et al. “AIGC-driven Digital Cultural Tourism and Twin Applications for Ancient Cities: A Case Study of Jianchang Ancient City Renewal Project (Phase II).” *Housing Science*, 2026, 46(03), 15-28.
- Bian, C.; Meng, G.; Zhou, X. “Quality Renewal Pathways for Future Communities from the Perspective of Scene Theory: A Case Study of Haixing Future Community in Jiaying.” *Housing Science*, 2025, 45(12), 18-26.
- Bian, C.; Meng, G.; Zhou, X. “Assembled Villages and Collage Cities: Deqing Practice.” *Housing Science*, 2025, 45(11), 27-36, 46.

Conference Papers

- Bian, C. “Here and Elsewhere: Borrowed Scenery beyond Time and Space.” In *Proceedings of the 2010 Annual Meeting of the Chinese Society of Landscape Architecture*, Peking University Institute of Landscape Architecture, 2010, 24-31.
- Bian, C. “Green Urbanism in Berlin and Its Implications.” In *Proceedings of the International Symposium on Chen Zhi’s Garden-Making Thought and Doctoral Forum on Landscape Planning and Design Theory and Practice*, Peking University Institute of Landscape Architecture, 2009, 176-180.

Research Output

PARTICIPANT

- Guo, N. *Research and Application of InSAR-based Surface Deformation Monitoring in Central Cities of Liangshan Prefecture*. Sichuan Province; Xichang University, 2021-11-15.

Monograph and Book Chapter

- Du, H.; Wang, X.; Yue, Z.; Ran, X.; Bian, C. “Investigation into the Absence of Rain Shelters at Shenzhen Bus Stops.” In Li, D.; Li, J. (eds.), *Observations and Reflections on Land and Society: Teaching Cases in Landscape Sociology*. Beijing: Higher Education Press, 2011, 141-162.
- Bian, C.; Tang, M. *Ecological Urbanism*. Wuhan: Huazhong University of Science and Technology Press, 2015.

Software Development

Guban AI / StockMate AI

Online Product

INDEPENDENT FULL-STACK DEVELOPER

2024 – Present

- Independently designed and developed an AI investment research platform for senior investors, covering stock screening, market trend interpretation, financial Q&A, and research report generation.
- Built an “AI Investment Jury” multi-agent workflow where macro, industry, financial-report, technical, sentiment, risk, and strategy agents collaborate on structured analysis.
- Implemented age-friendly smart watchlists, social-sentiment radar, strategy simulation, and RAG-based retrieval over financial reports and market news.
- Integrated frontend interaction, backend services, financial data APIs, multi-model LLM orchestration, and product-demo workflows; selected for the national semifinal round of AI Hackathon Tour University League 2026, Tongji University stop.

Education

Tongji University

Shanghai, P.R.China

PH.D. CANDIDATE IN ARCHITECTURE

2021 - Present

- Research focus: multi-agent reinforcement learning, seismic resilience assessment, urban renewal, and AI4Science.

Massey University

Palmerston North, New Zealand

VISITING SCHOLAR, SCHOOL OF AGRICULTURE AND ENVIRONMENT

2022

- Conducted research on landscape ecology, digital spatial analysis, and sustainable land-use planning, supported by the China Scholarship Council.

Peking University

Beijing, P.R.China

MASTER OF SCIENCE IN LANDSCAPE ARCHITECTURE

Sept. 2008 - July. 2010

- Received the Dean’s Scholarship for the Jinghu Reconstruction Project at Peking University Shenzhen Graduate School.

Sichuan Agricultural University

Chengdu, P.R.China

BACHELOR OF AGRONOMY IN LANDSCAPE ARCHITECTURE

Sept. 2003 - Jun. 2007

Honors & Awards

ACADEMIC & RESEARCH

	Young Geographers Award - Best Paper , 15th Korea-China-Japan Joint Conference on Geography;	
2023	“Resilience and Urban Regeneration Policies. Empirical Research from Top-Down and Bottom-Up Strategies: The Case Study of Xichang in Liangshan, Sichuan Province, China”	Seoul
2020	Excellent Instructor , Higher Education Committee, Sichuan Landscape Architecture Association	Sichuan, P.R.China
2019	Third Prize , First Gaofen Cup Smart Tourism Competition, National Major Project	China
2009	Dean’s Scholarship , Jinghu Reconstruction Project, Peking University Shenzhen Graduate School	Shenzhen, P.R.China
1997	Gold Medal , Sichuan Provincial Physics Olympiad, Junior High School Division	Sichuan, P.R.China

Research Experience

Urban Studies, Landscape Sociology, and International Field Research

Peking University Shenzhen
Graduate School; CDI Shenzhen

PARTICIPANT

2008 – 2010

- Participated in CDI urban-management salons and urban research, a social survey on missing rain shelters at Shenzhen bus stops, Suzhou garden fieldwork, and related research communication.
- Joined international architecture and landscape theory field research in Berlin and Prague, and participated in Jianyang Lake wetland planning, Shenzhen Guangming New Town urban design studio, and the Jinghu Lake renewal project.

Shenzhen, Yangzhou, Zhenjiang,
Kunming, Hangzhou, Jinjiang,
Jingmen, Suqian

Urban Design, Low-Carbon Eco-City, and Regional Planning Studies

PARTICIPANT / TECHNICAL LEAD

2010 – 2013

- Served as project manager and technical lead for hydrological-process and visual-process GIS analysis in ecological planning for Beijing's shallow mountain areas.
- Participated in Yueqing strategic planning, Zhuhai Chengxi conceptual planning, Yangzhou-Zhenjiang low-carbon landscape eco-city design, Kunming Duimenshan 3D mountain-city modeling, Qiandao Lake Pipawan development research, Hangzhou Jianghai Wetland conceptual planning, Jinjiang coastal planning, Jingmen tourism and city master planning, and Suqian urban-rural integration planning.

Panzhuhua, Jinsha River Dry-Hot Valley, and Local Ecological Planning Research

Panzhuhua; Jinsha River Dry-Hot
Valley; Xichang

PI / PARTICIPANT

2010 – 2015

- Participated in studies on Panzhuhua livable-city development, bougainvillea germplasm resources and industrial clusters, post-industrial heritage and urban capital, dry-hot valley ecological restoration with renewable energy, new urbanization pathways, industrial heritage conservation, and the 12th Five-Year ecological and environmental protection plan for Xichang.
- Led studies on water resources and ecological compensation in key Sichuan watersheds, 3D urban modeling for Panzhuhua West District, and Panzhuhua landscape ecological security patterns.

Liangshan STB; Sichuan Science
and Technology Department;
Sichuan Education Department

InSAR Surface Deformation, Landscape Ecology, and Ethnic Culture Projects

PI / PARTICIPANT

2017 – 2021

- PI, Liangshan Science and Technology Bureau project: InSAR-based Urban Subsidence Monitoring in Xichang (18YYJS0107, Dec. 2018–Aug. 2021, RMB 160,000, completed).
- Participant, Sichuan Science and Technology Department project: InSAR-based Surface Deformation Monitoring for Central Cities in Liangshan (2018GZ0499, Mar. 2018–Aug. 2021, RMB 200,000, completed).
- Participant, Liangshan Education Bureau project: Survey of Asteraceae Plant Resources and Medicinal Value in Xichang (ZRS201805, Nov. 2018–Dec. 2019, RMB 30,000, completed).
- PI, Sichuan Education Department project: Xichang Landscape Ecological Security Pattern (17ZB0399, Mar. 2017–Dec. 2019, RMB 40,000, completed).
- Participant, Sichuan Federation of Social Sciences Associations project: Multi-Ethnic Integrated Harmonious Education from the Perspective of Ethnic Culture (SC17XK047, Nov. 2017–Nov. 2018, RMB 15,000, completed).

Patents & Software Copyrights

Radar Corner Reflector Patents

2 granted patents

UTILITY-MODEL PATENTS

2021

- Miniaturized bidirectional flat-plate radar corner reflector with millimeter-level precision, Patent No. ZL 2021 2 0633917.0.
- Swing-arm angle bracket for radar corner reflectors, Patent No. ZL 2021 2 3275569.9.

InSAR Remote-Sensing Monitoring and Geospatial Analysis Software

4 registrations

SOFTWARE COPYRIGHTS

2021

- Terrain 3D reconstruction software based on interferometric phase, Reg. No. 2021SR0882358.
- DInSAR surface-deformation error-source and decorrelation analysis software, Reg. No. 2021SR08861.
- Time-series InSAR surface-deformation monitoring system, Reg. No. 2021SR0882870.
- High-resolution satellite-image land-use remote-sensing interpretation software, Reg. No. 2021SR0882871.

Academic Activities

Qionghai Lake Geodesign International Workshop

Xichang, P.R.China

WORKSHOP COORDINATOR

2018 - 2019

- Co-organized an international academic workshop in collaboration with the University of Sheffield focused on geodesign methods for Qionghai Lake watershed planning.
- Facilitated interdisciplinary collaboration between Chinese and international students and faculty on ecological and urban design challenges.
